

CIO TechWorld

TOP 10 OUTSTANDING CYBERSECURITY SOLUTION PROVIDERS OF 2024

01

Aembit
aembit.io
Silver Spring, MD

**David Goldschlag,
Co-Founder and CEO**

Enables DevOps and security teams to manage, enforce, and audit access for non-human identities.

02

Andesite
andesite.ai
McLean, VA

**Brian Carbaugh,
Co-Founder and CEO**

Leverages AI to analyze decentralized data sets at scale, enabling cybersecurity professionals to rapidly identify threats and vulnerabilities, prioritize resources, and respond effectively.

05

Harmonic Security
harmonic.security
San Francisco, CA

**Alastair Paterson,
Co-Founder and CEO**

Helping organizations adopt Generative AI securely by providing the tools and visibility needed to safeguard sensitive, unstructured data effectively, ensuring data privacy and operational efficiency.

06

Nagomi Security
nagomisecurity.com
New York, NY

**Emanuel Salmons,
Co-Founder and CEO**

Offers a proactive defense platform that provides a holistic analysis of threats, risks, and defenses, enhancing the effectiveness of security tools and minimizing threat exposure.

07

NewPush
newpush.com
Baltimore, MD

**Balázs Nagy, Co-Founder and CEO;
László Rácz, CTO;
Mark Johnson, CFO**

Offers a platform and managed security services based on the Continuous Threat Exposure Management (CTEM) model, transforming disparate solutions into a cohesive, integrated defense system, effectively mapping cybersecurity gaps across the attack surface.

08

RunSafe Security Inc.
runsafesecurity.com
McLean, VA

**Joe Saunders,
Founder and CEO**

Provides memory-based cybersecurity protection for embedded systems, ensuring that products deployed in critical infrastructure sectors are safeguarded against memory-based vulnerabilities and advanced cyber threats.

03

DeNexus
denexus.io
Boston, MA

**Jose M Seara,
Founder and CEO**

Provides an end-to-end cyber risk management solution that enables industrial enterprises and risk underwriters to continuously quantify and manage cyber risk exposure within their OT/ICS environments.

04

Entro Security
entro.security
Cambridge, MA

**Itzik Alvas,
Co-Founder and CEO**

Enables organizations to securely manage the lifecycle of non-human identities and secrets, overseeing their usage while automating processes from creation to rotation.

09

Tamnoon
tamnoon.io
Remote, WA

**Marina Segal,
Co-Founder and CEO**

Provides the only hybrid human-AI managed cloud security remediation service, helping security and development teams achieve continuous threat exposure management (CTEM) while streamlining cloud security from prioritization to remediation and prevention.

10

Technology Management Group (TMG)
tmgr.com
New York, NY

**Chris Moschovitis,
Founder, Chairman, Cybersecurity Expert, and CEO**

Since 1989, the company has consistently innovated to provide the most affordable, pragmatic, and powerful IT consulting, managed IT, and managed cybersecurity services to businesses and organizations of all shapes and sizes, across the country and abroad.
